sophistry or cunning figuring can efface the facts as shown by the several reports.

"Five." We append a statement made by D. S. Sanborn as follows:—Amount of labor expended, \$2500, on Crockett bridge, for bills contracted the year before \$500, leaving \$2000 for the labor. To get this to a money loaner discount of 25 per cent and a charge \$225, he would have expended \$2,072.25, \$490 was for bills due on the year before account, hence only \$1,607.25 was available for the year. The bills together makes \$3,017.25 less \$820.40 expended on Crockett bridge leaves \$2,196.85 to be divided by 40 men makes the cost per mile \$54.91 or with the amount of labor expended on Crockett bridge makes \$55.25 per mile.

We have no ax to grind or comments to make on the above, but we are in sympathy with this question with the tax payers of the town.

HANOVER.

Charles Frost of Boston, is stopping over relatives in town through the summer.

Charles Simpson, the new stage driver from Locke's Mills to Hanover, commenced on Monday morning. He has put on a nice span of horses and covered carriage.

George Watson has returned from the straw shop in Upton, Mass., and will stop the summer with his sister, Mrs. B. P. Smith.

Mrs. Dollie Wheelock of Milbury, Mass., is visiting her parents, J. M. Brown and wife.

John Bessant has shut down his woolen mill for an indefinite length of time, with the exception of custom carding.

Rev. Mr. Pease preached here in Union Church on Sunday, October 19. The day was observed as Children's Day, the children having exercises after the church service. The next Sunday, October 26, will be an alternate Sunday at the same hour.

The Fourth passed off very quietly here with the exception of the wadding of a quantity of gun powder. The Ladies Union Society had a dance in the evening at the home of Mrs. J. M. Brown. Twenty-five couples were in attendance and all enjoyed a very pleasant time.

Helen Staples has returned from Chicago according to the expectation made from that city. She will spend the summer with her sister, Mrs. J. B. Roberts.

Miss Sturges, who is here, was married at the time of the great earthquakes. She saw buildings shaken down all around her. She was married in the morning in the open air through that awful night when the falling buildings would not reach the ground.

Smith Brothers have commenced work on an addition to their barn 49x80 feet. They intend to have it ready for their new hay.

S. W. Holt and wife have come to Berlin, N. H., on a visit.

John W. Smith, of New York, who came here for his health and is stopping with his brother, C. B. Frost, is quite feeble.

GRAFTON.

People are busy fighting that atrocious error, the people of Grafton are hard telling which will carry the day.

We understand that Orin Foster of Newburyport, who is here, is at Grafton north near the long hill when he was interrupted by brain which was inadequate to the task. He has been made quite a commotion among the stock.

Willie McMaster is in town with his peddler's cart. This health is better.

John W. Smith, of New York, who came here for his health and is stopping with his brother, C. B. Frost, is quite feeble.

MINNEOLA.

In the year 1911, or in some other year at least, the people of Minneola, Indians from a tribe that lived in the southern part of York county, Maine, slowly came to the town of Minneola, and a fishing and hunting excursion, and in due time they passed through the Notch and fled their way to the St. Lawrence country.

While there one of the young Indians happened to be killed by a bullet, which was the only daughter of the chief of St. Lawrence tribe with whom they had formed an alliance. The chief of the tribe was not the son of a chief and had not blue blood in his veins, or because he was not considered a chief, he was the son of the many reasons whereat the unforgiving parents crush their children's hearts, his chief was killed.

The Fourth passed off very quietly. There was no shooting except to enjoy a dance in the evening.

They left home about twelve years ago and have been in Lynn, Mass., but Mr. Holt's health failing they removed to New Hampshire, where he is at present engaged in the shoe business with his cousin, John A. Holt, also of this town. Mr. and Mrs. Holt will remain here for three weeks visiting relatives and friends. They speak of their trip as having been exceedingly pleasant and by the way, the most agreeable mode of traveling proved one of the best.

PETER PIERCE.
The Fourth of July was duly observed in this little town by a morning show of the Gipsies and Indians, also a cart full of rather outlandish looking musicians, whose playthings were rather low, but their music was nice. Then came the East Waterford Brass Band. Then marching to Plumtree Grove to the "Marching Through Georgia," where a large number of people were present with respectful delegations from other towns. The band discoursed excellent music and singing with organ accompaniment was cheering and satisfactory. The declamations and recitations were rendered with pleasing effect, especially that of Master Charlie Wilson, a young lad of seven years, whose declamation is the first order. The dinner was excellent and the most excellent of all the excellent of the day was the discourse on temperance in the afternoon by Rev. Mr. Robinson, pastor of the M. E. Church. A game of base ball was played at 5 o'clock p. m. between the Bridgton Mill Club and a picked up nine mostly of Sweden boys, which resulted in a narrow score for the Bridgton team but Sweden. This evening a wheelbarrow and a sack race were in the prospective program.

The board machine is now running in earnest, doing more and better work than before. The thorough repairing of the engine with shortening of the belt has given it more power, and steadier runs than before the fire. The water pump, Mr. Bennett has a better plan for bus-work than he ever had before either by steam or water power and he is now running the works with water power nearly all the year by building in the part of the old dam the water dam and putting in a water wheel.

Schools in districts No. 1 and 8 closed last week. That in No. 1 taught by Rev. Dorman of Bridgton's Mill, was closed eight weeks in length but was profitable than an ordinary school of eight weeks.
